Phones4Change Appeal is new simple and fun mobile phone recycling initiative that invites primary schools across Northern Ireland to collect old mobile phones in return for state-of-the-art schools equipment and technology. The appeal is run by The Comber Foundation who use the proceeds from the appeal to build homes and establish support services for disabled people living in institutions in Romania and Eastern Europe.

In return for as few as 30 used mobile phones your school can benefit from new classroom equipment. If you collect 300 phones you can have an Interactive Whiteboard (3 types available) supplied and installed free of charge (supplied by Promethean Ltd). There is no limit to the quantity of boards that a school can receive and we encourage each class to organise their own collection. Every phone counts - no matter how old or whether it still works or not. Register your school now!
